

TRACVISION®

TracVision® R-series

Fully automatic satellite TV system for superior reception wherever you travel!

TracVision offers an unsurpassed digital TV switchover solution - park, switch on and watch - no setting up or tuning hassles provided there is line of sight. Fuss free digital TV.

- Low profile 30 & 38 cm high designs that look great on any caravan or motorhome
- Hundreds of digital free to air and subscription satellite television and radio programming
- Quality at an affordable price
- Freesat, Sky, Free to air and HDTV-compatible
- Not subject to wind or driving off without being stowed
- Fully automatic satellite switching using your remote control – even with HDTV programming!
- Unsurpassed reliability and customer support throughout Europe
- Fast, foolproof satellite acquisition and tracking
- Compatible with all DVB satellites throughout Europe

Stay Connected

By providing great reception wherever you go, TracVision keeps you entertained and in touch.

Easy access to Entertainment

TracVision automatically finds the satellite of your choice and provides unsurpassed satellite reception - even on the move!

Convenience and Safety

The TracVision dome protects the antenna from wind and weather while eliminating the need to “stow” associated with conventional pop-up systems.

Mobile **digital TV** made simple!

Mobile digital TV made simple!

KVH – the Leader in Mobile Satellite Antenna Systems

KVH Industries is the world's leading provider of mobile satellite communications and television antenna systems as well as the #1 choice of North America's premier RV manufacturers. With more than 150,000 mobile satellite antennas sold, KVH has supplied more in-motion satellite TV and communications systems for mobile applications than any other manufacturer in the world. Tens of thousands of RV, coach, boat, and automobile owners enjoy digital-quality television programming thanks to KVH's diverse family of award-winning TracVision antennas.

Unsurpassed Warranty and Technical Support

KVH's commitment to quality and reliability is unmatched; TracVision antennas are the most reliable on the road. Every TracVision system undergoes the most stringent quality checks in the industry, including highly accelerated lifecycle testing, military specification environmental tests, shock and vibration testing and in-depth functional evaluations prior to delivery. An ISO 9001:2000-certified organisation, KVH meets the highest international standards for quality.

CA Clase are extending KVH's standard 2-year warranty program with an additional year for TracVisions installed by CA Clase trained & approved dealers - registration required. We offer the broadest network of authorised dealers, 24/7 online support, and troubleshooting; a responsive technical and customer support team; and the highly trained dealers in KVH's Certified Support Network (CSN).

When you choose KVH and TracVision, you choose the best!
